Jersey

Jersey, the largest of the Channel Islands, is one of the world's major international finance centres. The successful combination of stability and reliability has kept Jersey at the forefront of global finance for almost half a century. Government determination to encourage high quality business to the island, and the support offered by the sophisticated and comprehensive infrastructure of laws and regulations, combine to promote investor confidence.

Jersey's status as a Crown Dependency gives the Island constitutional rights of self-government and judicial independence. This offers both businesses and investors the benefits of an independent international finance centre which is close to the UK and mainland Europe.
