

Employee Benefits

Ogier is one of the world's leading providers of offshore legal and fiduciary services. The group has a presence in nine jurisdictions around the world, employing over 800 professional and support staff, providing advice on all aspects of BVI, Cayman, Guernsey and Jersey law and associated fiduciary services.

Employee Benefits

Our Employee Benefits Team comprises experienced lawyers, accountants, chartered secretaries and other qualified administrators who assist with the design, establishment and ongoing administration of many different types of complex employee incentive arrangements.

Our Team advises on a wide range of services including the provision of trustee, nominee, custodian and administration services, each tailored to a client's specific requirements.

The Employee Benefits Team offers both legal and fiduciary services, bringing together two vital elements in managing a successful employee incentive plan. The combined legal and fiduciary Team works closely with our clients and their advisors and can recommend experienced advisors to new clients.

Our clients benefit from secure online access to core plan and financial information through our bespoke PlanTrack system. Participants and employers are able to view and manage plan details through the interactive system and flexible reporting functions. Online access to plan data can be restricted to preserve confidentiality and presents both a consolidated and detailed analysis of incentive scheme assets.

Participants are able to make transaction recommendations and benefit requests online and have access to employee benefit plan documentation, including documentation personal to them as well as generic incentive scheme information.

Services include:

Design, establishment and on-going administration of executive employee compensation schemes including:

- Deferred compensation plans
- Equity ownership plans
- Employment companies
- Pension plans
- Tailored solutions
