## Areas of expertise

LexTech - Technology Consultants >

## Background and experience

Karl has a deep understanding of technology and how it best serves an organisation. Karl brings over 18 years of technology and consultancy experience and still remains passionate about simplifying the complex and delivering successful projects.

Karl holds both academic and professional qualifications in law, technology, audit and project management.

Karl previously worked as a Senior Consultant with Ergo (a Microsoft Gold Partner). He has

advised and managed several multinational enterprises on their technology strategy and digital transformation projects.

His areas of expertise include legal audit, legal training and digitisation.

## Recent Work

Karl has successfully delivered enterprise technology projects across both public and private sector organisations in Ireland, the UK, and the US.
