

Our Cayman and BVI teams will be in attendance at Consensus 2023 by CoinDesk - deemed one of the world's largest and most influential gatherings of the cryptocurrency, blockchain, and Web3 community.

Bringing together developers, investors, founders, policymakers, brands and others, Consensus 2023 aims to "find solutions to crypto's thorniest challenges and finally deliver on the technology's transformative potential." With delegates from 112 countries in attendance in 2022, this year's conference promises to be even more impactful.

Ogier Cayman Partner Bradley Kruger and Counsel Chris Wall will be joining the Blockchain Association of the Cayman Islands at booth location 448 throughout the summit.

If you would like to connect with us at the event, please reach out.
