

The Association of Insurance and Risk Managers in Industry and Commerce (Airmic) is holding its second Captives Forum on 21 March at Lloyd's of London.

This event will focus on sharing the thoughts of industry experts and enabling more in-depth discussions through a series of boot camp and roundtable sessions. A number of our delegates will be speakers in these sessions and welcome attendees to connect with them further at networking opportunities over the course of the day.

Richard Sharp from Ogier in Guernsey will be attending. Get in touch to arrange a meeting.
