

Reinsurers, capital providers, brokers, consultants and advisors are invited to join us at the Reinsurance Masterclass in London, part of the Guernsey Finance ILS Insights series.

This event will highlight the latest developments and challenges in the world of reinsurance, the opportunities for capital in a disrupted reinsurance market, and how Guernsey is perfectly placed to deliver solutions in a capital constrained world.

Guernsey is now the largest domicile for captive insurance in Europe, has recently celebrated over one hundred years of captives, 25 years of Guernsey PCCs and is the home of a number of high profile transactions including the recent Lloyds of London Central Fund Cover. The island is recognised as a global centre of substance, with a proven and respected regulatory environment.
