

We are delighted to be attending and once again being part of the LIDW23.

With its theme: Adapting to a Changing World, LIDW23 will follow up on last year's theme "Global, Sustainable, Ethical" and look not only at what progress has been made in the dispute resolution world over the last year, but also at what we can expect over the next year and beyond as the world's economies hit some well publicised headwinds. What does the next year hold for dispute resolution professionals around the world?

LIDW23 will feature a combination of a varied technical programme combined with the usual variety of social and networking events to enable participants to share ideas, to make new contacts and connections and to renew old acquaintances.

If you would like to connect with us at the event, please get in touch.
