

Ogier is proud to sponsor Regen Gathering, an annual regenerative food and farming festival in Jersey that puts farmers and health at the centre of the conversation.

A free two-day event featuring panel discussions, workshops, and technical demonstrations, REGEN 2024 is a nonprofit event for farmers, growers, and everyone who is interested in the food they eat and how it affects the environment, their health, and society.

Ogier's Head of Sustainability, Gill Knights will attend the conference alongside sustainability manager Rebecca Shutler and managing conveyancer Charles Le Maistre.
