

This conference will discuss experiences Scandinavian and Luxembourg asset managers can share regarding digital transformation. Why is the development of innovative cross-border savings and pension products crucial for the future of the industry and what role does financial education play? How can sustainable products flourish, meet investor demand and contribute to better lives for all?

Tax Counsel, Hadrien Bremon will attend the Copenhagen session and will be pleased to meet you if you wish to get more information about our legal services.

Contact us, if you would like to connect at the conference.
