Background and experience

Throughout her career, Arlene has worked extensively with a number of leading service providers providing comprehensive oversight and continuous improvement of transfer agent related processes and controls, delivery of successful, timely and cost-effective regulatory and product project-based initiatives; including multiple service provider transitions, operational project management, implementation of regulatory change and due diligence.

Before joining Ogier, Arlene held the position of director within the global fiduciary platform of a leading global asset manager.

Arlene holds a Bachelor of Arts (Hons) Degree in English and Linguistics from the University of Westminster.
