

Group Partner, Emily Haithwaite, will be speaking at the next Jersey Finance Funds Masterclass event with a focus on private markets and private equity. This event is being held virtually.

The discussion will focus on the appetite for the asset class seen in 2020, despite the pandemic, and Jersey's role as a specialist private equity centre. The panel will examine the sector's current challenges, opportunities and future outlook, including decisions on domiciliation, structuring and distribution, regulatory change, substance, scrutiny on ESG integration and the adoption of digital tools.
