

Spread over three days, this year's all-virtual ISDA AGM 2021 is expected to deliver intelligence on key derivatives industry issues, led by senior industry executives and regulators from across the globe and includes industry leaders from the buy and sell-side and regulatory communities.

Please get in touch with partners [Bruce MacNeil](#) and [Christopher Jones](#) if you would like to arrange a virtual meeting to discuss any Jersey or Guernsey related queries.

Ogier's Derivatives team is recognised internationally as a leading offshore practice. It provides, among other things, the ISDA netting and collateral opinions and the GMRA and GMSLA opinions in Guernsey and Jersey. Other services provided by Ogier's Derivatives team include:

- preparing capacity and authority opinions on offshore counterparties (as capacity and authority issues are not covered by the above opinions);
- preparing netting and collateral enforceability opinions on any counterparty types not covered by our ISDA/GMRA and GMSLA opinions;
- preparing netting and collateral enforceability opinions on bank clients' prime brokerage documentation and standard form master agreements ;
- reviewing ISDA/GMRA and GMSLA documents from a local legal and regulatory perspective; and
- advising on security issues and regulatory issues relating to marketing to and trading with offshore counterparties.
