

Ogier is headline sponsor of this year's Guernsey Private Wealth Forum.

As a force for global good, Guernsey has a reputation for successfully channelling wealth into solving the issues that private clients care about. For more than 50 years, Guernsey has been providing specialist private wealth services, and the island has a breadth and depth of experienced professionals including fiduciary, investment management, tax, and legal services.

WE ARE GUERNSEY Chief Executive said at the promotion agency's annual industry update in January that 2021 would be the year of private wealth. This year's Guernsey Private Wealth Forum, 'The Power of Capital', will focus on the good that wealth can do. The panel will explore Guernsey as a centre for family offices and associated private wealth structures, discussing philanthropy along the suite of products Guernsey offers, and how sustainability runs through it all.
