

Guernsey Finance and Guernsey Green Finance are delighted to present Sustainable Finance Week, which will take place live in Guernsey from Monday 19 - Friday 23 September 2022.

Ogier is sponsoring the event, which will host market leading keynote speakers and informative panel sessions and provide an opportunity to network with allocators, managers and providers of capital (both private and institutional), leading international figures in sustainability and private wealth and investment fund owners, and insurance practitioners.

During the event, three sustainable finance themes will be discussed: biodiversity, the energy transition and carbon markets.

Partners Tim Clipstone and Bryon Rees from our Funds and Corporate team in Guernsey will be attending. Please get in touch if you'd like to arrange a meeting.
