

Ogier Global Escrow Services

Escrow services are complementary to our multi-jurisdictional corporate services. Our in-house team is experienced in a wide range of transactions, delivering flexible solutions designed to mitigate financial risk by independently holding funds or assets for public or private companies across the globe, ensuring transactions close timely, accurately and securely.

We take a professional approach with all escrow services, tailoring our approach to the complexity and time sensitivity of our clients' needs.

We are able to support companies in safeguarding and managing the inherent risks associated, ensuring that client funds are protected and handled by a specialised service provider.

Our Escrow Services:

- Establishment and management of special purpose vehicles (SPV) for the purpose of becoming a party to the escrow agreement
- Act as independent third-party escrow agent to preserve the assets pursuant to the agreement between the transacting parties
- Avoids conflict of interest and gains guarantee of payment once conditions of agreement are met
- Establishment of multi-currency bank accounts through our close banking relationships
- Vigorous risk monitoring of deposits held with reputable institutes
- Reporting mechanisms for cash and other assets held
- Access to a team managing liquidity and risk
- Collection of escrow fees, costs or indemnities
- Timely distribution and release of funds at completion
