

Ogier Global Debt Capital Markets and Aviation

Ogier Global offers integrated legal and corporate services. With a global presence of offices across Asian, Caribbean, European and Middle Eastern time zones, we can ensure complex transactions are completed within the tightest of deadlines.

Our legal team works closely with Ogier Global's corporate and fiduciary professionals to support clients with the formation and administration of asset finance vehicles, public and private debt issuers and securitisation vehicles.

This synergy is particularly beneficial in the aviation industry, where the structuring of debt through capital markets can provide the necessary leverage for large-scale aircraft leasing operations, aligning financial strategy with asset management.

Corporate Services

Debt Capital Markets

Our debt capital markets teams have extensive experience working on a variety of transactions that utilise special purpose vehicles (SPVs) including asset-backed securities (ABS), loan origination, synthetic securitisations, note issuance programmes, syndicated loans and repackaged securities.

Banking and finance

Matching the right level of experience and expertise to each transaction, our top tier global Banking and Finance legal team has built our practice to advise all stakeholders across the full product lifecycle.

Structured Finance

From debt and other security instrument listings to complex cross-border financing transactions, restructuring and insolvency, we draw on the complementary disciplines of our banking structured finance, fund finance, investment funds, corporate and dispute resolution teams to provide an efficient service.

Aviation

Our team has considerable experience advising in respect of the acquisition, lease and sale of aircraft, as well as aircraft registration, aircraft certification and security registration.

We advise both lenders and borrowers on all aspects of aircraft financing, and have extensive experience of the security granted in relation to such financing. This includes all aspects of debt and structured finance, security enforcement, restructuring and insolvency.

Listing services

We streamline the securities listing process on various exchanges. Our expert teams support issuers with guidance and assistance, covering both initial listings and ongoing compliance with listing rules and obligations.

Our legal team supports our listing offering by advising on compliance with local listing rules, for both regulated and unregulated exchanges, as well as advising on broader European frameworks including Market Access Regulation (MAR), the Prospectus Regulation and the Transparency Directive.
