

BVI Law in Europe

BVI structures are used throughout the world, which is why we offer teams of BVI qualified lawyers in all time zones. Ogier's BVI team in Europe includes specialists with decades of experience, meaning we can offer a true 24-hour service to clients across the globe.

Why BVI?

The use of BVI entities is popular with investors from across all industry sectors. It is, by a significant margin, the largest jurisdiction for the domicile of corporate entities, with approximately 400,000 companies active and registered there.

With modern and flexible corporate and limited partnership statutes, structuring using BVI entities accommodates the investment objectives of both sponsors and investors. In addition to our team based in the Caribbean, we have BVI qualified lawyers in Jersey and Guernsey, many of whom have on-the-ground experience practising in the BVI.

Our BVI team in Europe provides clients and intermediaries with advice across practice areas, including:

- Banking and Finance
- Corporate
- Technology and Web3
- Dispute Resolution
- Investment Funds
- Private Wealth
- Regulatory
