Escrow services and cash management

Our multi-jurisdictional teams are dedicated to ensuring a smooth, transparent process

Escrow services

Our deep understanding and extensive experience in merger and acquisition transactions has allowed us to effectively manage escrow services in these areas. We act as a neutral third party to hold, disburse, and regulate payment of the funds required for two parties involved in a given transaction.

Additionally, our expertise extends to asset sales and restructuring. Here, our role as an escrow agent ensures that the transaction process is fair and transparent, providing assurance to all parties involved. Furthermore, in situations requiring back to back refinancing and warranty payments, our escrow services provide the necessary financial security and efficiency.

Cash management

At Ogier, we understand the importance of effective cash management. In the context of debt repayment, we offer solutions designed to optimise your payment structures, improve your liquidity, and manage your financial risks. Our proficient teams work diligently to ensure your repayment schedules are met in a timely manner.

In the realm of interest reserve and debt reserve, our knowledge and skills are paramount. We provide strategies to help maintain the right balance in your reserve accounts, ensuring you meet your obligations while maximising your financial flexibility.

We also offer due diligence deposit and cash custodian services for funds and Special Purpose Vehicles (SPVs). We safeguard your deposits and manage the cash flow in your SPVs, ensuring proper allocation and use of funds for the intended purpose. Our goal is to provide you with peace of mind, knowing your cash resources are managed professionally and efficiently.
