Our sustainability and DEI

How we deliver services for our clients is influenced by our three core values: bravery, humanity and excellence.

A commitment to sustainability

Our goal is for sustainability to be embedded in our culture and permeate our business at every level.

Ogier's Environmental Impact Policy sets out our approach to improving our environmental performance beyond its legal obligations. As part of this approach, we have set ambitious reduction targets for our carbon emissions through the Science Based Targets initiative (SBTi) – targets grounded in climate science, in line with the global net-zero goal.

We are also members of the Net Zero Lawyers Alliance (NZLA), an organisation we are working with to develop industry best practices.

Recycling, re-use and waste minimisation

Paperless office

We were the first paperless law firm in Ireland. Our decision to go paperless means that we have significantly reduced our CO2 emissions and carbon footprint.

Composting

We compost by segregating food waste from the general and recycling wastes. This initiative is aimed at reducing the amount of food waste accumulated in the office, which ultimately ends up in landfills and produces methane emissions.

Battery bins

We introduced battery bins throughout the office to collect any depleted batteries. These batteries are then delivered to a local authority recycling centre to ensure they are disposed in a safe manner.

Other initiatives

We have established agreements of responsible disposing with many of our suppliers to ensure that our goods were being correctly managed after we were finished with them. This included company seals, printer toners and glass bottles to name but a few. The suppliers collect our waste monthly as set out in the agreement, allowing us to maintain our high standard of waste management and minimisation.

Bio-diversity and improving natural habits

Green spaces

We're working with our landlord to create a more bio-diverse environment between the office and the canal where we're located, to be a more friendly space for local wildlife and pollinators.

We are also working on installing two bee hives in this new green space.

Diversity Equity and Inclusion (DEI)

As a global business we recognise diversity, equity and inclusion can be complex, challenging and nuanced. We're meeting it with courage, drive and openness.

We've systematically ingrained diversity, equity and inclusion within our decision-making, management and overall approach. The mission of our DEI initiative is to create an inclusive and respectful environment where every one of our employees can thrive.

Change takes time, but by being bold about difference and brave about change, we'll get there.
