We advise trustees, individuals and corporate entities on their arrangements and offer support across the lifetime of schemes, through to termination and wind-up.

We advise on the full range of legal, regulatory and tax issues relating to pensions in Jersey, Guernsey, the British Virgin Islands and Cayman Islands, from establishment of tailored jurisdictional schemes to assisting on buy-out, closure to future accruals and winding up. We advise a significant number of banks and other financial institutions on their employee pension schemes in our jurisdictions and further afield.

Ogier has strong relationships with many of the major international law firms. The team regularly guides multi-jurisdictional organisations through a wide range of corporate transactions including listings, mergers, acquisitions, management buy-outs, and restructurings. We offer legal advice

throughout the insolvency process and its impact on pension and incentive arrangements.

Our services

Employee benefit trusts

Establishing employee benefit trusts for the purposes of holding shares or options, either for warehousing purposes or to enable innovative and attractive incentive arrangements to be put in place for the executives of our clients.

Corporate

We frequently work alongside other teams within Ogier involved in advising in respect of existing or new employee incentive plans where companies are being sold or are involved in a takeover.

Pensions

Advice on pension schemes established under Article 131 or Article 131A of the Income Tax (Jersey) Law 1961 as amended. We have advised also on the establishment of more niche pension arrangements such as QROPS or QNUPS.

Ogier is a member of the IPEBLA (International Pension and Employee Benefit Lawyers Association) and ESOP (the Employee Share Ownership Centre). As members of the Jersey Pensions Association, we have been very involved in the recent changes to, and the revamping of, Jersey's pensions law.

Case studies

Drafting a trust deed

We drafted a Guernsey law trust deed to establish a trust to hold certain assets of a PRC entrepreneur, including the shares in a BVI company which was the entrepreneur's principal holding company.

The trust deed included reserved powers which allowed the PRC entrepreneur to retain the power to make investment decisions over the shares in the BVI holding company even after those shares were transferred into the trust.

Reviewing a trust deed to protect client

We reviewed a Jersey law trust deed drafted by a trustee and advised the PRC settlor of the trust on his rights and powers under the trust deed and how the trust deed could be amended to better protect the interests of the settlor and the beneficiaries of the trust against possible future claims from creditors.

Drafting a will

We drafted a BVI law will covering the shares in three BVI companies held by a PRC entrepreneur and which were critical to the ownership of his business.

The terms of the will were very specific in order to ensure that the shares in the BVI company passed to certain specific members of the entrepreneur's family in certain proportions exactly as the entrepreneur wanted.

Obtaining probate

We drafted all the documents necessary, provided all the relevant advice and dealt with the relevant BVI court application for the executor of the estate of a deceased PRC businessman in

respect of the BVI will of that deceased businessman in order for the shares in several BVI companies owned by the deceased businessman to pass to his wife and children in accordance with the terms of his will.

Our involvement was necessary to ensure that the shares could be transferred and we ensured that this happened as quickly as possible to allow the continued smooth operation of the companies.

Pre-IPO planning – drafting a BVI law employee benefit trust (EBT or ESOP)

We assisted the PRC founder of a technology business as part of the pre-IPO planning for that business.

The PRC founder considered that retaining key staff would be critical to the success of the IPO and the business. To assist with retention of key staff, we provided advice and drafted all the documents necessary to establish and operate an employee benefit trust (EBT).

Under the EBT, certain key staff of the business could be invited to become beneficiaries of the EBT and they would be eligible to receive shares in the Cayman company which was to be listed if they achieved certain business targets and remained as employees for a certain period after the listing. In this way the relevant employees were incentivised to remain with the company and contribute to its success in the period before and after the IPO.

We also worked with colleagues in the corporate team of Ogier who advised the client of the Cayman law aspects of the IPO of the Cayman company.

Restructuring

Our client was a PRC entrepreneur and had established a Cayman trust for the benefit of him and his family several years previously.

We advised our client and drafted or reviewed all the documents necessary in order for our client to transfer his shares in a BVI company and the US\$200 million debt secured over those shares to the trustee of the Cayman trust.

This involved advising on a combination of trust, company, and banking and finance law issues and working with our client, his PRC advisors as well as the lending bank and their advisors.

Private trust company (PTC)

We assisted a PRC businessman in establishing BVI private trust company (PTC) to act as trustee of a Jersey law trust for the benefit of him and his family.

The client wanted to establish a trust in order to hold some of his investment assets worth over US\$50 million and to benefit his family, but he wanted to ensure that his family members retained involvement regarding decisions over those assets.

We assisted the client in establishing a BVI PTC to be the trustee of the family trust. The board of directors of the PTC comprises a number of members of the client's family (as well as some professional advisors and trusted associates) and that provides the mechanism by which the family is able to be involved in decision making regarding the trust and the assets it holds.

We assisted the client by drafting the Jersey law trust deed, establishing the PTC and advising on the BVI and Jersey legal and regulatory issues relevant to operating the PTC.

Family governance

We advised a PRC business founder and his adult children in establishing and operating a Guernsey foundation.

The purpose of the foundation was to hold business assets of the family as well as certain personal assets (including a valuable art collection and other financial assets) worth in total approximately US\$1 billion for a number of purposes including to fund the education, travel, medical and other living costs of family members, to finance future business ventures of family members (i.e. an internal family venture capital fund), and to fund gifts to charity.

We drafted the charter and rules of the foundation and also regulations to govern the operation of a number of different committees who would advise the foundation on its various activities. This work required us to liaise very closely with the family members and their lead advisor, to understand exactly what they were seeking to achieve and to find ways to balance the competing interests and needs of the family members.
